FROM THE MANAGING DIRECTOR'S DESK

Dear Stakeholders,

It gives me great pleasure to announce yet another year of healthy growth. FY16 was a crucial year for us as we reemphasized our focus on the growth agenda we had set for ourselves. We closed the fiscal year with increase in revenue by 16%, EBITDA by 21% and PAT by 17%. In FY16 our multiyear transformation program again helped us to step up growth and increase margin despite volatile macro-economic market conditions. Through this transformation, we continue to drive improvements across the organization.

The primary drivers for this growth have been a healthy mix of volume growth in tandem with premiumization. In the last 12 months, Relaxo introduced more than 100 products and is continuously raising the bar. We continue to leverage our strong in-house design capability, whose endeavor is to constantly innovate techniques to provide cutting edge products at reduced costs. To further foster a culture of innovation, we have also launched an innovation portal for our employees to crowd source new product design ideas. The Company is also working towards establishing a dedicated R&D function within the organization.

We have initiated end-to-end distributor and retailer programs to improve engagement levels and connect with our channel partners. The distributor engagement program has delivered incremental and sustainable benefits to Relaxo while ensuring a healthy relationship with our channel partners. The retailer based loyalty program has helped in establishing direct connect with retailers and reward their efforts in promoting Relaxo brands. We have also effectively enhanced our distribution coverage both by strengthening the presence in current regions and expanding across new regions. As celebrity marketing has been studied and analyzed to be an effective lever to build trust in the brand, this year we have engaged Salman Khan – as a brand ambassador for Bahamas. We believe Salman will successfully convey Bahamas as trendy youthful brand. We have also continued with Akshay Kumar – as a brand ambassador for Sparx and Sonakshi Sinha – as a brand ambassador for Flite.

Retail continues to remain instrumental in increasing brand visibility with net increase of 43 stores during FY16, the total tally of Company owned retail stores is 250 as on 31st March, 2016, spread across North

and Western India. We see Modern Trade and E – Commerce as key growth engines of the future and we are well placed to take advantage of the same. Our online shopping portal at www.shopatrelaxo.com has been revamped and is performing with better conversion rates than initial estimates. In FY17, we plan to rollout a structured cost reduction initiative to optimize spending and improve overall profitability of the Retail business.

In order to support sustainable and profitable growth, we took steps towards manufacturing excellence across key production units. The program aimed at improving productivity and reducing manufacturing costs with the help of world class manufacturing concepts like Lean Manufacturing and Maynard Operation Sequence Technique (MOST) has been rolled out in select plants. We have been successful in controlling manufacturing costs by optimizing manpower utilization, energy consumption and rationalizing miscellaneous, capital & operational expenses. Training & capability development programs for the workforce were implemented to improve operational effectiveness at manufacturing facilities.

We were able to manage the material cost due to effective monitoring of the raw material expenses and easing of prices in the international market. We were able to leverage technology for procurement by using e-Auction platform which resulted in cost reduction and improved efficiency. In order to service our channel partners faster and better, Regional Distribution Center (RDCs) operations have been further strengthened. Forward looking supply and capacity planning has been carried out for both plants and warehouses to support future growth.

At Relaxo, we understand that our people and technology are key growth enablers and we have made significant advancements on both fronts. We have continued with leadership development program and Long term incentive plan through ESOPs, which have been successful in targeting and retaining key talent. We have imparted functional and behavioural trainings for all departments and covered 82% of the employees as part of training program. Technology is the backbone of your company and helps in integrating various functions on one platform, thereby, providing efficiencies in operations. Your company took important initiatives last year to support and transform the front and back end functions.

I would like to end by expressing sincere appreciation for continued support from our customers, business partners, Board of Directors, bankers and all the valued employees for their significant contribution and good performance in last year. I sincerely thank all of you and am pleased to share the success that Relaxo has achieved during the last year.

With Best Regards
Ramesh Kumar Dua

(B) NON-FINANCIALS - GROWTH ACROSS THE VALUE CHAIN

Consumer Focus / Product Innovation

Your Company continued its relentless efforts to understand the consumer and has designed its portfolio in line with their changing tastes. Structured market research approach along with regular market sensing exercises have kept Your Company abreast with consumer needs across different regional, economic and demographic strata. Our focus on in-season launches with an optimal product portfolio, has enabled us to deliver right products at right price points at the right time. All our brands – Relaxo, Flite, Sparx and Bahamas have experienced good growth and success with our revised approach on building a targeted portfolio.

New product development is the key driver of consistent growth for our company. We have a very strong in-house design capability, whose endeavor is to constantly innovate techniques to provide cutting edge products at reduced costs. We have also launched an innovation portal for our employees to crowd source the new product design ideas and are also working towards establishing a dedicated R&D function within the organization.

We are bullish on the growth potential from organized retail and e-commerce platforms and have developed a dedicated portfolio to ensure healthy topline contribution from them,

with minimal impact to conventional trade channels. This has been a successful strategy for FY16 and continues to be a focus area for FY17.

Trust in the brand is essential for its growth and we intend to invest heavily to ensure this objective is met. As celebrity marketing has been studied and analyzed to be an effective lever to build trust in the brand, this year we have engaged Salman Khan as the brand ambassador for Bahamas. We believe Salman will successfully convey Bahamas as trendy youthful brand. We have also continued with Akshay Kumar as the brand ambassador for Sparx and Sonakshi Sinha as the brand ambassador for Flite.

Sales Channel Development

We have successfully implemented end-to-end distributor and retailer programs to improve engagement levels and connect with our channel partners. The distributor engagement program has delivered incremental and sustainable benefits to Relaxo while ensuring a healthy relationship with our channel partners. The retailer based loyalty program has helped in establishing direct connect with retailers and in rewarding their efforts in promoting Relaxo brands.

We have also effectively enhanced our distribution coverage both by strengthening the presence in current regions and expanding across new regions.

We continue to believe Flite PU to be a brand with high potential and have setup initiatives to improve product offerings, manufacturing standards and overall market presence. We will continue to focus on Flite PU brand in FY17. Retail continues to remain instrumental in increasing brand visibility with its 250 stores spread across North and Western India. In FY16, we focused on strengthening the back end infrastructure by improving inventory control and building a flexible supply chain. We have also been successful in adapting changes in technology to upgrade our ERP and reporting platforms. This has led to improved visibility across the system and is supporting better decision making. Our structured store expansion has helped strengthen the Relaxo brand and facilitate a strong connect of the company with the end consumer. We are also in the process of renewing our loyalty reward scheme and enabling digital payment facility for our customers via digital wallets. Our online shopping portal, www.shopatrelaxo.com, has been redesigned and is performing with better conversion rates than initial estimates. In FY17, we plan to rollout a structured cost reduction initiative to optimize spending and improve overall profitability of the Retail business.

With changing global sourcing patterns, international brands are moving towards India from China to fulfill their contract manufacturing requirements. Relaxo is rightly positioned to become a reliable partner for these brands. Branded label contract manufacturing is being looked as a key growth area for Your Company in the medium term. Relaxo branded channel sales across international markets has also strengthened, with Middle East continuing to be our key revenue contributor, owing to widespread Indian diaspora and the Company's market understanding. We continue to focus on African and Oceania markets as well and are well positioned to capitalize on the next wave of growth from these regions.

Procurement

Your Company was able to manage the material cost owing to effective monitoring of the raw material expenses and easing of prices in the international market. We were able to leverage technology for procurement by using e-auction platform which resulted in cost reduction and improved efficiency.

Manufacturing

In order to support sustainable and profitable growth, we took steps towards manufacturing excellence across key production units. The program aimed at improving productivity and reducing manufacturing costs with the help of world class manufacturing concepts like Lean Manufacturing and Maynard Operation Sequence Technique

(MOST) has been rolled out in select plants. We have been successful in controlling manufacturing costs by optimizing manpower utilization, energy consumption and rationalizing miscellaneous, capital & operational expenses. Training & capability development programs for the workforce were implemented to improve operational effectiveness at manufacturing facilities.

We are also fulfilling our commitment towards environment by utilizing alternate sources of energy. We have successfully completed a pilot project to harness power by commissioning a solar unit in one of our plants in Jan'16.

Technology

Technology is the backbone of Your Company and helps in integrating various functions on one platform, thereby, providing efficiencies in operations. Your Company took important initiatives last year to support and transform the front end and back end functions. We have launched a real-time sales automation tool to enable our distributors to place orders and track them. Keeping in line with the technology trends, we are moving towards cloud based solutions to improve overall system resilience and accessibility.

Supply Chain Optimization

Supply chain remains one of the key areas for enabling growth of Your Company. Focused initiatives have been implemented towards improvement in utilization of existing distribution network and optimizing inventory. In order to service our channel partners faster and better, Regional Distribution Center (RDCs) operations have been further strengthened. Forward looking supply and capacity planning has been carried out for both plants and warehouses to support future growth.

We plan to continue to ensure close coordination between Manufacturing, Supply Chain and Sales to ensure on-time fulfilment of demand while maintaining optimum inventory levels. We also plan to continue focusing on fulfilling requirements of our non-distribution channels like Modern Trade, Retail and Exports.

People Focus

Over the last year, the HR function in Your Company has been continuing the transformation journey towards becoming a high performance function. Following key initiatives were delivered in FY 16:

- a) **Culture assessment:** Your Company sales and capabilities are growing at a rapid pace. It is imperative that the culture also evolves at a commensurate pace. The current exercise of culture assessment has identified levers & HR interventions are planned to take it to the next level.
- b) **Employee Stock Options Program (ESOP):** Select group of employees, depending upon their nature of job and criticality of the position that they handle, were granted shares in 2014 under the ESOP 2014 scheme (RFL ESOP PLAN -2014). Shares were vested in August 2015 as per

the policy.

- c) **Employee Engagement-** Your Company is focused on creating an employee friendly workplace. To increase employee engagement, employees are given forums to raise their issues and look outside of their core role via one-on-one sessions and skip-level sessions. For our workmen, we organized Workmen Family Connect Programs in our Plants.
- d) **Leadership Development:** Crucibles, a Leadership Development Programme, is a fine mix of Classroom Trainings, On the Job Cross Functional Projects and Coaching sessions aimed at developing leaders from within Relaxo. Crucibles was carried out successfully in its second year run.
- e) **Training and Development:** We imparted functional and behavioural trainings for all departments. Last year, we covered 82% of the employees as part of the training program.
- f) **Reward and Recognition:** Recognition programs such as Function wise Star Employee of the Quarter Award has been running successfully.

MANAGEMENT DISCUSSION & ANALYSIS

This report contains statements that the Company's beliefs may be considered to be "Forward Looking Statements" that describe our objective, plans or goals. All these forward looking statements are subject to certain risks and uncertainties, including, but not limited to, government action, local & global, political or economic developments, changes in legislation, technology risks, risk inherent in the Company's growth strategy, dependence on certain suppliers and other factors that could cause our actual results to differ materially from those contemplated by the relevant forward looking statements.

These forward looking statements included in this report are made only as on the date of this report and we undertake no obligation to publicly update these forward looking statements to reflect subsequent events or circumstances.

Industry Structure & Development

The footwear industry is acknowledged as one of the prominent industries contributing extensively to the international market. The sector generates employment for nearly 2.5 million people, mostly from the backward or weaker sections of the society. With a ready availability of manpower and raw materials, this sector has shown a strong growth in the past few years.

Despite Indian footwear sector contributing less than 1% of the total GDP of the country, India continues to be the second largest footwear manufacturing hub of the world. India accounts for 9% of global annual footwear production (~22 billion pairs) as compared to China, whose share in global production is more than 60%. Of the 2.1 billion pairs produced annually, nearly 90% are consumed internally while the remaining are exported, primarily to European nations.

India's annual footwear consumption is the third largest globally after China & USA, recording a steady growth over the last decade. This growth is driven primarily by the rise in income levels, growing fashion consciousness and evolving customer needs due to globalization. However the average per capita footwear consumption continues to be low at nearly 1.66 pairs per annum in comparison to the global average of 3 pairs per annum and developed countries average of 6-7 pairs per annum. This gap coupled with increasing disposable income, rising middle class and changing consumer preferences provides a tremendous opportunity for the Indian footwear market to grow at a rapid pace going forward.

India's share in the global export market is a meagre 1.9% in value terms, making it much lower than the leading producer, China, which shares 40% of the global market.

The Indian Footwear Market is standing on the threshold of a revolution. The facets of this revolution lie in the inherently dynamic operating environment, the evolving income – demographic pyramids and more importantly the changing consumer behavior. The Indian footwear industry comprises of both organized and unorganized sector estimated to have equal share of the overall domestic market in value terms. Unorganised

sector dominates the market in sales volumes mainly due to its presence majorly in the low cost rubber / plastic footwear. But with the expansion in retail market and mall culture in India, the organized sector is making inroads in the untapped market and growing its market share. The footwear sector is expected to grow at a CAGR of 15% over the next 10 years, considering domestic demand of a rising population base and a huge potential for exports.

Operating Environment

The market sentiments have remained cautious for a major part of last year and consumer demand has been sluggish due to vulnerabilities in the domestic and international markets. Delay in implementation of GST has increased the uncertainty in the tax environment. The non-leather footwear industry itself has undergone a transformation in the last few years with the entry of international players, rapid change in lifestyle and income growth across levels. Indian footwear companies are seeing a growing demand for fashion, comfort, convenience, style and versatility in footwear. The industry is also witnessing a strong trend of online retail. Non-leather footwear manufacturers have witnessed a significant increase in demand with the rise of e-commerce and online shopping. This trend is expected to continue in the future as well.

With the surge in domestic demand, technology adoption, increased awareness and easy availability of stylish designs, the footwear industry is expected to continue to grow in the near future.

The Changing Consumer Behavior

Indian consumers are also evolving with the market with respect to habits, lifestyles, tastes and preferences. The advent of organized retailing, malls and multiplexes has transformed the shopping habits and expectations of the Indian consumer. There are significant changes that can be seen in the purchasing behavior of an Indian customer. A typical upper middle class young consumer is looking beyond the utility aspect of a product and seeks intangibles like brand and a strong fashion statement from his footwear. This modern consumer wants his purchases to reflect his lifestyle aspiration. With rise in income & increased awareness about products and proliferation of choices, consumers have become very selective in their purchases.

Opportunities & Threats

A stable government at the center has resulted in an overall improvement in the economy and business. The Central Government has shown its intent in furthering the reform momentum to revive investments and improve governance. The global commodity cycle is expected to be benign with consumption demand from the Chinese economy slowing down, reducing input costs. Taking cues from the inflationary trend, the Central Bank has already eased the monetary cycle and is expected to bring out more interest rate cuts going forward. Such favorable internal and external conditions provide an excellent

opportunity for sustained economic activity in FY 16-17.

Opportunities for footwear companies also exist in developing a robust product portfolio, ensuring product availability and maintaining internal efficiencies. An enhanced, customer centric product portfolio would enable greater customer satisfaction. The products need to be made available to the consumer at their convenience, which is where reach and availability will play a major role. Improving internal efficiency and building systems will enable the industry to capitalize on the opportunities available in the market. With the growing trend of online shopping, the e-commerce platforms also present a valuable opportunity and is expected to be a key growth driver in the future.

Scarcity of skilled labour and stagnant socio – economic reforms will be some of the key concern areas for the footwear industry. However, Your Company enjoys the benefit of being in the business for more than four decades and has a better understanding of the footwear market, compared to its peers. Your Company has been adopting appropriate strategies, e.g., Brand Building, focus on Quality & Innovation, Talent Management etc. to achieve its objectives.

Risks and Concerns

Macro-economic factors like a downturn in the economy, unforeseen political and social upheavals, natural calamities, below normal monsoon are likely to affect the business of Your Company as also the industry at large.

Change in Government's fiscal policy also has a bearing on the Company's performance.

Employee turnover and availability of skilled labour is also a challenge in the production process.

Retailer's needs and expectations are as different as the customers they serve, which is also a challenge to growth.

The fluctuation in dollar price is also adversely affecting the cost of imported goods purchased by Your Company.

Internal Control System and its adequacy

The Company has special financial, operational and other control systems which are carried out by internal process and which involve monitoring, independent evaluation and timely reporting to management in a systematic order to ensure that all the activities are performed in accordance with current policies, methods, instructions and limits.

The Company has a systematic audit process which is carried out by internal auditors independently as a part of internal control function and in the form of financial activities and compliance audit, independent of the external auditor's activities, considering the management and organizational needs.

The Company has all the mechanisms concerning the process of standard-setting, reporting, verifying the compliance with standards, decision-making and implementing, which are established by the Board of Directors in order to monitor, to keep under control and, if necessary, to change the risk/return structure of the future cash flows of the Company and accordingly, the quality and the extent of the Company's

activities. INDEPENDENT AUDITOR'S REPORT

To the Members of

RELAXO FOOTWEARS LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of RELAXO FOOTWEARS LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2016, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 ("the Rules"). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order

to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2016 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure 'A' a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of written representations received from the directors as on 31st March, 2016 and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2016 from being appointed as a director in terms of section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure 'B' and
 - (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending

litigations on its financial position in its financial statements -Refer Note 28 to the Financial Statements;

RELAXO FOOTWEARS LIMITED

(Referred to in Paragraph 2(f) under the heading "Report on other legal and regulatory requirements" of our report of even date)

Report on the Internal Financial Controls under clause (i) of sub section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of RELAXO FOOTWEARS LIMITED ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of

the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Company Information and Significant Accounting Policies

26 Company Information

Relaxo Footwears Limited ('the Company') is a Public Limited Company registered in India and is listed at Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). Company is one of the leading players in the Footwear Industry engaged in manufacturing and trading of Footwear and related Products. The company has 'state of the art' manufacturing facilities at Bahadurgarh (Haryana), Bhiwadi (Rajasthan) and Haridwar (Uttarakhand). The selling arrangements are through its Wholesale, Export, Modern Trade and Company operated Retail Network.

27 Significant Accounting Policies

(a) Basis of Preparation of Financial Statements

The Financial Statements have been prepared in accordance with the historical cost convention under accrual basis of accounting as per Indian Generally Accepted Accounting Principles (Indian GAAP). All the Accounting Standards (AS) specified in Companies (Accounting Standard) Rules, other pronouncement of ICAI, guidelines issued by SEBI, provisions of the Companies Act, 2013 as applicable are complied.

Use of Estimates

Indian GAAP enjoins management to make estimates and assumptions that affect reported amount of assets, liabilities, revenue, expenses and contingent liabilities pertaining to year, the financial statement relate to. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Presentation and Disclosure of Financial Statements

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current/ non-current classification of assets and liabilities.

(b) Tangible Fixed Assets

Tangible fixed assets are held with the intention of being used for the purpose of producing goods or providing services and is not held for sale in the normal course of business.

Tangible fixed assets are stated at historical cost of acquisition i.e. cost less accumulated depreciation and impairment loss, if any.

The cost of asset comprises its purchase price including

import duties and other non-refundable taxes, and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance.

Grant/ subsidy received is reduced from the cost of specific fixed asset.

Project under which assets are not ready for their intended use and other capital work-in-progress, are carried at cost comprising direct cost and directly attributable expenses.

(c) Intangible Assets

Intangible assets are carried at cost less accumulated amortisation and impairment loss, if any. The cost of an intangible asset comprises its purchase price including import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use.

Intangible Assets under development are shown separately and at the cost incurred in bringing the asset to its present condition.

Subsequent expenditure on an intangible asset after its purchase / completion is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in such case such expenditure is added to the cost of the asset.

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technological feasibility has been established, in which case such expenditure is capitalised. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for Tangible Fixed Assets and Intangible Assets.

(d) Depreciation and Amortisation

Depreciation is provided pro-rata to the period of use on Straight Line Method (SLM) based on the estimated useful lives of the assets, which have been determined as per Schedule II of Companies Act, 2013, except in case of Plant and Machinery and Moulds wherein the useful life is taken as thirty years and six years respectively. The life of Plant and Machinery and Moulds has been assessed considering the technical study, technological obsolescence, actual usage, historical data regarding breakdown, uses and maintenance and industry data available on record. Components having useful lives different from the life of

parent assets are depreciated over the useful life of the components.

Leasehold lands are amortized over the period of lease except where the lease is renewable. Cost of leasehold improvements is amortized over the period of lease and any further addition is amortized over the balance lease period.

Intangible assets are amortised on straight line basis. Trade Marks and Technical Know-how are amortised over their useful life, not exceeding ten years. Softwares are being amortised over the period of five years.

(e) Impairment of Assets

Any impairment loss is recognized to the extent, the carrying amount of assets exceed their recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

(f) Investments

Investments which are readily realizable and is intended to be held for not more than one year from the date on which such investment is made, are classified as current investments.

Investments other than current investments are classified as Long Term Investments. Long Term Investments are stated at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. Cost of investment includes acquisition charges such as brokerage, fees and duties.

(g) Valuation of Inventories

Raw Materials, Packing Materials, Consumables, Stores and Spares

These are valued at lower of cost and net realizable value. The costs of inventories comprise all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. The costs of purchase consist of the purchase price including duties and taxes (other than those subsequently recoverable from the taxing authorities), freight inward and other expenditure directly attributable to the acquisition. Trade discounts, rebates and other similar items are deducted in determining the costs of purchase.

However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on weighted average basis.

Work-in- Progress and Finished Goods

These are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty

wherever applicable.

(h) Cash Flow Statement

Cash and Cash Equivalents

Cash and Cash equivalents comprise cash on hand and balances with Banks other than earmarked balances.

Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit or (loss) before extraordinary items and tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

(i) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured and there exists reasonable certainty of its recovery.

Sale of Goods

Sales are recognised when the substantial risks and rewards of ownership in the goods are transferred to the buyer upon supply of goods and are recognised net of trade discounts, returns, sales taxes and excise duty.

Income from Energy Generation

Revenue from energy generated through Windmills is recognized on the basis of net power delivered as per power purchase agreement signed with Discom(s).

Interest Income

Interest income is accounted on a time proportion basis taking into account the amounts invested and the rate of interest.

Dividend Income

Dividend income is recognised when the right to receive is established.

(j) Government Grants

Government grants in the nature of promoters' contribution like investment subsidy, where no repayment is ordinarily expected in respect thereof, are treated as capital reserve under shareholders' fund.

Grant/Subsidy received against specific fixed asset is reduced from the cost of fixed asset.

Export benefits are accounted for in the year of export based on eligibility with certainty in receiving the same.

(k) Foreign Currency Transaction

Initial Recognition

On initial recognition, all foreign currency transactions are recorded by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Subsequent Recognition

Monetary current assets and liabilities at the year-end are translated at the rate prevailing on Balance Sheet date. The difference thereon and also the exchange difference on settlement of foreign currency transactions during the year is recognized as income or expense in Statement of Profit and Loss.

Non-monetary items are carried at historical cost and reported using the exchange rate at the date of transaction.

Forward Exchange Contracts

The premium or discount arising at the inception of forward exchange contract, which is not intended for trading or speculation purposes is amortized and recognized as an expense/income over the life of the contract. Exchange difference on such contracts is recognized in the statement of profit and loss in the period in which the exchange rates change. Any gain or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or expense for the period.

Derivative Transactions

All outstanding derivative contracts in respect of firm commitments are fair valued at every year end, on a mark-to-market basis and any loss on valuation is recognised in the statement of profit and loss, on each contract basis. Any gain on mark-to-market valuation on respective contract is not recognised by the Company, keeping in view the principle of prudence as enunciated in AS 1, 'Disclosure of Accounting Policies'. Any reduction in fair value or reversal of such reduction is included in statement of profit and loss.

(l) Employee Benefits**Defined Contribution Plan****Provident Fund and Employee State Insurance**

Contribution towards provident fund and employee state insurance for employees is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the company does not carry any further obligations, apart from the contributions made on a monthly basis. Such contributions are charged to the Statement of Profit and Loss for the period of service rendered by the employees.

Defined Benefit Plan**Leave Encashment (Compensated Absences) and Gratuity**

Accumulated leaves, which are expected to be availed or encashed within twelve months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating leaves as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated leaves, which are expected to be availed or

encashed beyond twelve months from the end of the year are treated as other long term employee benefits. The company's liability is actuarially determined (using the Projected Unit Credit Method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

In case of Gratuity, the company funds the benefits through annual contributions to Life Insurance Corporation of India under its Employee Group Gratuity Scheme. Company's liabilities towards Gratuity are actuarially determined, at each year end. Actuarial gain or loss is recognised in the statement of profit and loss. Obligation is measured at the present value of estimated future cash flows using a discounted rate by reference to market yields at the Balance Sheet date on Government Bonds.

(m) Employee Share Based Payments

The Company follows Intrinsic Value method for valuation of Employee Stock Option in accordance with the SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share Based Payments, issued by the Institute of Chartered Accountants of India.

(n) Borrowing Costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, are added to the cost of those assets, until such assets are ready for their intended use. All other borrowing costs are recognised in statement of profit and loss in the period in which they are incurred.

(o) Leases

Leases in which a significant portion of the risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are expensed with reference to lease terms and other considerations.

(p) Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the year is adjusted for events i.e. bonus issue, share splits and further issue of share capital.

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) for the period attributable to equity shareholders by the weighted-average number of shares outstanding during the period and adjusted for the effects of all dilutive potential equity shares.

(q) Tax on Income

Current tax is determined on the basis of estimated taxable income computed in accordance with the provisions of

Income Tax Act, 1961.

Deferred tax is recognized on timing difference between the book and taxable profit for the year and quantified using the tax rates and law enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets are recognized and carried forwarded only to the extent that there is a reasonable certainty that asset will be realized in future.

Minimum Alternative Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal Income Tax during the specified period. In the period/year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that company will pay normal Income Tax during the specified period.

(r) Provisions and Contingent Liabilities

Provisions

Provisions are recognized when there is a present obligation

as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability. Material contingent liabilities are disclosed by way of notes.

Contingent assets are neither recognised nor disclosed in the Financial Statements.

(s) Prior Period Items and Changes in Accounting Estimates

Prior period items as well as changes in accounting estimates having material impact on the current period financial statements of the company are disclosed separately.
